1. Newly submitted claims 5-7 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: new independent claim 5 includes limitations such as television set including a CRT for displaying a television picture, a microprocessor unit (MCU) for controlling receiving and displaying of television picture in response to user's command, CRT scanning means including horizontal scanning means, wherein, the sound signal alone is processed when the television picture displayed by the CRT is shut down.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 5-7 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

2. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
